

Raspberry Pi - IR Receiver 38khz Sensor & Remote Control User Manual

IR Receiver

38KHz IR Infrared Remote Control with battery

The new ultra-thin 38K universal infrared remote control, NEC encoding format 1-21-key remote control, USB port stereo, car MP3, foot bath, lighting, digital photo frame, microcontroller development board, learning board, etc..

features:

Size: 86 x 40 x 6.0mm

The remote control range of 8 - 10 m (infrared receiver quality of the middle whether the obstacles and other factors will affect the remote control distance)

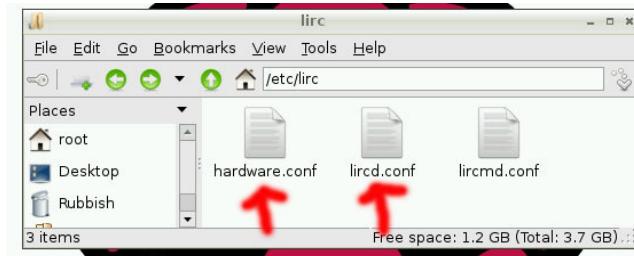

Battery: 3V lithium manganese battery

IR carrier frequency: 38KHz Surface materials: 0.125mmPET

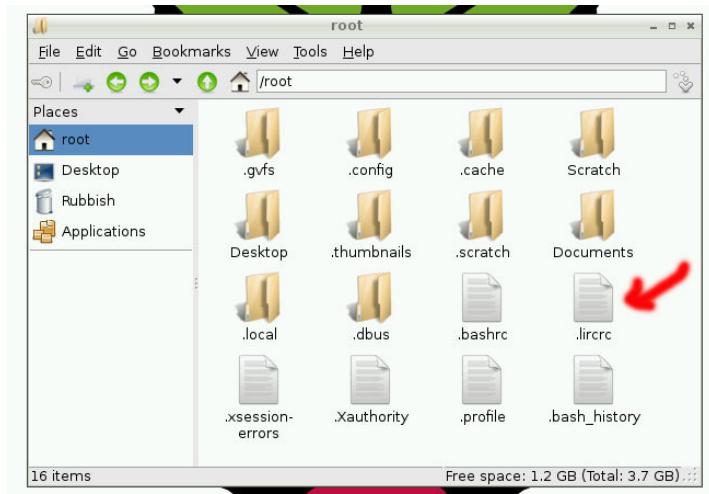

1. **Sudo apt-get install lirc**
2. **sudo apt-get install python-lirc**

3. Download 3 Remote control setting files

[lircd.conf](#) [.lircrc](#) [hardware.conf](#)

Copy hardware.conf & lircd.conf to /etc/lirc

Copy .lircrc to /root
